Three Indonesians in the Snow!

MONTREAL, Canada - Three Indonesian confreres are actually in Montreal (Canada) to participate in a formation at the IFHIM (Montreal Institute of Integral Human Formation). In the photos, they are seen leaving the smm residence and entering the metro station to go to their courses; they are Ludovicus, Avelinus and Dwi. Courses started on 3 January. Ludovicus will finish in May while the two others are in their first year. Dwi arrived on 13 December. He left Jakarta at 40°C to land in Montreal in a snow storm at -15. Dwi speaks French, but the two others hand to learn this sometimes complicated language. This year, winter is exceptionally cold, with weathers fluctuating between -30°C and -15°C. They stay at the community of the Sanctuary Mary Queen of Hearts. Our confreres haven't yet risked themselves on skates or skis...
